

ONLINE INTERNATIONAL SCHOOL · ASIA & OCEANIA

School should feel like the whole world opening up.

An online international school for children aged 6–18, where they learn beside friends across Asia and Oceania — and grow into who they really are.

Sept 2027

Opening

US\$365 / mo

About 1/5 the usual cost

8

Children per class

A third option, beyond rank and pedigree.

Existing international schools are wonderful — and out of reach for most families, at US\$2,000–3,000 a month. Many online schools, meanwhile, quietly drop real dialogue and optimise for one thing: the race to a top university and a big company.

NIJIN GLOBAL ACADEMY (NGA) is built for families who want something different. We believe every child carries two powers: the power to **be happy** — to be fully themselves — and the power to **do happy** — to make someone else's life a little better. Most schools choose one. We grow both, every single day, in classes of just eight children who meet from across Asia and Oceania.

Be Happy

We don't rank children. In a diverse classroom, each child sharpens the individuality and strength they didn't know they had.

Do Happy

Being yourself is the beginning. Learning beside friends worldwide, children practise making others happy — every day.

Not a start-up promise — a proven model.

NGA is founded by the team behind NIJIN ACADEMY, Japan's largest alternative and online free school. The model already works — we are bringing it to the world.

800+

children already learning at NIJIN

3 yrs

running an online school in Japan

100+

educators in our network

Children who had stopped going to school come back to life here. Children once labelled “special needs” become the heroes of their class. That is the heart of what we do — and it is why our work has been recognised at the highest levels in Japan.

Featured on NHK & TV Asahi

“For the first time, my child says they want to go to school in the morning. They found friends — and found themselves.”

— Parent, NIJIN ACADEMY

The world as one classroom.

A friend in Bangkok. A friend in Sydney. The same class, today. In groups of eight, children from across Asia and Oceania learn together — each with a bilingual mentor walking beside them.

09:00**Morning Circle**

Share today's mood, in English and Japanese, with friends around the world.

10:00**Core Lessons**

Language, maths, science and world studies in small, interactive groups. Cambridge IGCSE available.

12:30**Lunch & Free Time**

A peek into each other's tables, around the world.

14:00**Project Workshop**

Small teams, big questions, real solutions — with partner organisations.

15:30**Closing Reflection**

What did you learn? What will you carry into tomorrow?

- Live class meetings twice a week, plus 50+ subject periods a month
- Times adapt to time zones across Asia & Oceania — the shape stays the same
- No entrance exam; English beginners are supported in Japanese too

Two kinds of proof of who they are.

Children leave NGA holding both a credential universities understand, and a record of who they truly are.

01 Academic credential

An optional Cambridge IGCSE / A-Level & CEFR pathway through a UK-accredited partner school — the language universities around the world read fluently.

02 Who they really are

A US-style competency transcript, read by 400+ progressive schools and universities — for everything a test can never measure.

Rigorous academics, yes. Academics as the measure of a person's worth, no. We prepare children for university *and* for a life of being themselves and lifting others.

“Not a world where the one who did the same as everyone, best, wins — but a world where you are yourself, and you make someone happy.”

World-class, not high-cost.

Typical international school: US\$2,000–3,000 / month

US\$365 / month

About one-fifth of the usual cost. No hidden fees. Sibling discounts available (2nd child US\$295, 3rd US\$225). One-time enrolment US\$660.

Everything is included: twice-weekly live classes, 50+ subject periods a month, a bilingual mentor for every child, and all learning materials.

Four steps to joining

1

Talk with us

A 30-minute conversation, any weekday, in English or Japanese.

2

Trial class

From Sept 2026, join a real class and meet future classmates.

3

Decide together

Both sides decide. We enrol every month.

4

Start

Meet your mentor and begin the following month.

The only admission criterion is whether your family shares our philosophy. There is no academic test and no English requirement. Studying alongside your local school is welcome.

A teacher who left the classroom to rebuild it.

Hoshino Tatsuro — Founder & Headmaster, NGA / CEO, NIJIN, Inc.

● From Yokohama to Guatemala

Born 1990. B.Ed., Chiba University. Served as a JICA Overseas Cooperation Volunteer teaching primary education in Guatemala.

● Seven years in a public classroom

Taught at a public elementary school in Japan — and saw too many children dimmed by a system built on rank.

● Founded NIJIN in 2022

Left teaching to fix education from outside the system. Now runs 13 education ventures, changing schools from inside and out.

● 800+ children, and counting

Built Japan's largest alternative and online free school as its headmaster — proof this model works.

● 2027: NIJIN GLOBAL ACADEMY

The next chapter — an online international school for Asia & Oceania.

Author of *Psychological Safety in the Classroom* (Meiji Tosho, 2024). Recipient of the JCI JAPAN TOYP 2025 Grand Prix and the Prime Minister's Award.

Be Happy. Do Happy. Let's build it together.

We open in **September 2027**, with a first cohort of 100 children.

Be the first to hear about free trial classes and enrolment.
